FULLY TRANSPARENT & ETHICAL SUPPLY CHAINS

Knowing that a product was made in a factory that has a social audit (such as BSCI) or that the materials used are recycled or organic gives the assurance that a product will not unduly harm the environment, or the people in the supply chain.

In an effort to keep pace with the green movement, our suppliers have been finding ways to address sustainability in their business practices. There are several ways they have made their products more sustainable, while creating eco-friendly promotional products as well.
